

## ICDExpert for Post-acute Care

**ICDExpert for Post-acute Care**, with our hallmark features and content, is designed specifically to address the challenges faced by home health, hospice, skilled nursing and rehabilitation services when using ICD-10-CM/PCS coding and reimbursement systems. This valuable online solution delivers every description, guideline and instruction in Expert code books, but in a more convenient format and just as affordable. Monthly updates ensure code descriptions and clinical information are always current, helping you comply with HIPAA. Use as a complement or replacement for your coding book.

### Key features and benefits

- **Optum360 Edge — Optum360 Library.** Supplemental content has been added that addresses home health and hospice reimbursement and coverage issues including:
  - Overview of home health prospective payment system
  - Qualifications for Medicare coverage of home health
  - Oasis diagnosis guidance
  - Case-mix variables and scores
  - Clinical dimension case-mix groups
  - NRS Case-mix adjustment variables and scores
  - Diagnosis categories for NRS case-mix adjustments
  - Valid diagnosis/etiology pairings

---

- Hospice criteria for Medicare coverage of non-cancer hospice care
- Hospice guidance and quality reporting guidance
- Optum360 FastFinder™ for home health
- **Optum360 Edge — Placeholder X alert.** This symbol, **Xtension Check**  **✓X 7<sup>th</sup>** (designed and used exclusively by Optum360®) alerts the coder to a new ICD-10-CM convention — the use of a “placeholder X.”
- **Optum360 Edge — Detailed clinical and lay descriptions.** Access comprehensive clinical and lay information at the chapter, code block, category, subcategory and code level. Includes proprietary Focus Points.
- **Optum360 Edge — Color-coding and symbols specific to the home health PPS edits.** Quickly identify coding and reimbursement issues specific to home health for improved coding accuracy and work efficiency.
- **Optum360 Edge — Color-coding for hospice non-cancer diagnosis codes.** Know at a glance which diagnosis codes qualify a non-cancer patient for hospice care.
- **Optum360 Edge — Additional character-required symbols.** Know when an additional character is required for code specificity and validity to avoid invalid code submissions (provided in index and tabular section).
- **Optum360 Edge — Highlighted coding instructional and informational notes.** Recognize important code usage guidance for specific sections more easily with highlighted notes.
- **Optum360 Edge — “Unspecified” and “Other” code alerts.** Find official coding guidance that suggests home health agencies avoid using diagnoses that are unspecified or vague.
- **Optum360 Edge — Anatomical illustrations.** The focus is on featuring anatomy and terminology included in the ICD-10-CM/PCS classification systems, in order to help you better understand procedures and anatomy so you can select the best possible codes.
- **Optum360 Edge — Official index.** Navigate through the official index to the tabular section and external causes using our exclusive shade guides to easily identify subterm levels under main terms.
- **Optum360 Edge — Hallmark design and features.** Ease into the new classification system using intuitive visual alerts to highlight code groupings as well as the distinctions between code choices. Plus, added features make finding specific sections easier.
- **Optum360 Edge — ICD-9-CM/ICD-10-CM mapping.** Includes ICD-9 v1 and v2 codes mapped to ICD-10-CM codes using the general equivalency mappings (GEM) and proprietary Optum360 MapSelects. Also includes Optum360 tabular (ICD-10-CM book) content and Optum360 mapping logic. Maps ICD-9-CM v3 procedure codes to ICD-10-PCS codes.
- **Notations for diagnoses that group to clinical dimension.** Expedite identification of diagnoses that group a patient to expanded clinical dimensions case mix groups to ensure appropriate reimbursement.
- **Non-Routine Supply (NRS) diagnosis alert.** Every condition is identified that may qualify for receiving non-routine supply reimbursement adjustment.

- **Manifestation code alert.** Properly use codes that represent manifestations of underlying disease by knowing when two codes are required and by knowing alerts to sequencing rules.
- **Table of drugs and chemicals and neoplasm.** Updated tables within ICD-10-CM with every possible code for each event.
- **HIPAA compliance.** Comply with HIPAA transaction and code set requirements to avoid delayed or denied claims and costly fines for violations.

1. CodeLogic™ search engine searches CPT®, HCPCS, ICD-10 and ICD-9 diagnosis and procedure codes simultaneously using lay terms, acronyms and abbreviations.
2. ICDExpert for Post-acute Care provides ICD-10-CM/PCS code lookup efficiently all on one screen.
