

ICDExpert for Physicians

ICDExpert for Physicians gives providers direct access to all the ICD-10-CM diagnosis codes, informative color-coded and specificity edits, and tables and indexes so you code confidently throughout the year. This valuable online solution delivers every description, guideline and instruction in the Optum360 expert code books but in a more convenient format that is just as affordable. Updated monthly, ensuring code descriptions and clinical information are always current and helping you comply with HIPAA. Use to complement or replace your coding book.

Item number:

1402

Price:

\$109.95 per user

Key features and benefits

- **Faster, easier searches of ICD-10-CM diagnosis codes.** Locate the code you need with a term search, or scroll through the index to access sections from the code book.
- **Immediate guidance from user-friendly color-coded edits, guidelines and instructions.** Avoid thumbing through multiple code books searching for information.
- **Always-current code descriptions and clinical information.** Code more confidently knowing that you are accessing up-to-date extensive appendixes, commonly miscoded procedures, Medicare requirements and glossaries.

Search results page

The screenshot shows the 'OPTUM360 ICDExpert | Physicians' interface. At the top, there's a search bar with 'malnutrition' entered. Below the search bar, a callout box says: 'Locate the code you need with a term search, or scroll through the index to access sections from the code book.' The search results are displayed in a tree view. A second callout box highlights the 'Malnutrition E46' entry, listing sub-categories like 'degree', 'following gastrointestinal', 'intrauterine', and 'lack of care, or malnourished'. The interface includes navigation tabs for 'Index Only Search' and 'Search', and a 'Refine Search' section.

Code detail page

The screenshot shows the 'Code Detail' page for ICD-10-CM code E43, 'Unspecified severe protein-calorie malnutrition'. A callout box points to the code description, stating: 'Always-current code descriptions and clinical information'. Another callout box points to the right-hand side of the page, stating: 'Immediate guidance from user-friendly, color-coded edits, guidelines and instructions.' The page layout includes sections for 'Code Description', 'Chapter Notes', 'Section Notes', and 'Code Range Notes'. On the right, there's a sidebar for 'Optum360 Data' with expandable sections for 'Color Codes', 'Unspecified Code', 'MCC - Major Complication (Facility Billing Only)', and 'ICD-9 Mapping'.
