New features:

- Deleted Code Detail Page**
 Now you are able to reference all of the materials that were pertinent to the code while it was active. This can be invaluable for retrospective reviews and audits.
- NEW — Ability to view RVU data on the Code Detail page**
 With this addition, users can access the code detail page by the code or the RVU icon from the Code Range page.
- NEW — HCC Calculator**
 With this new tool, users have the ability to quickly see the RAF (Risk Adjustment Factors) relationships between diagnosis codes and HCC groups for chronic conditions.

Quick and easy to use
