Introduction

Optum360 is pleased to present the 2019 Anesthesia Cross Coder. Fully comprehensive, the Anesthesia Cross Coder links more than 300 CPT® codes commonly used by anesthesiologists to corresponding surgical CPT and ICD-10-CM diagnosis codes, and as appropriate, ICD-10-CM procedure and HCPCS Level II codes. Optum360 believes that professional coders working in physician offices, clinical outpatient areas, hospitals, as well as payer settings will find this reference a useful tool.

Anesthesia Cross Coder is based on the Anesthesia section of Physicians' Current Procedural Terminology (CPT), but includes CPT codes commonly used by practicing anesthesiologists from other sections of the CPT system as well. Up-to-date CPT codes link to the following related medical coding systems:

- International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM)
- Healthcare Common Procedure Coding System (HCPCS) Level II

All coding relationships in *Anesthesia Cross Coder* start with the Anesthesia section of the CPT book presenting a general clinical picture of each anesthesia code. Pertinent surgical related coding relationships were carefully reviewed and screened for appropriate information.

In some instances, the data is abridged simply due to the enormity of the listings. For example, diagnosis codes for infections call for additional codes to identify specific organisms. The possible associations are too numerous and do not appear in *Anesthesia Cross Coder*. For further discussion, see the ICD-10-CM section later in this introduction.

Some CPT codes are omitted from the listing because consistent and reliable cross-links are almost impossible to establish. Unlisted procedure codes are an obvious example.

As a coding reference, Anesthesia Cross Coder presents most likely scenarios as derived from clinical information and official sources. Anesthesia Cross Coder is not a substitute for ICD-10-CM or any other medical coding reference and users are urged to regularly consult all available sources. The absence of any specific code does not necessarily indicate that its association to the base procedure code is inappropriate. Assuming all rules of anesthesia coding are followed, excepted diagnosis codes may prove appropriate to a specific code scenario.

Anesthesia Cross Coder does not include coding rules or guidelines. Once again, the user is urged to consult the original coding reference (e.g., CPT, ICD-10-CM, HCPCS Level II, etc.) or one of several reputable medical coding instruction manuals.

CPT Anesthesia to Procedure Code Crosswalk

The surgical CPT codes are listed with the corresponding anesthesia CPT codes. The relationships were developed by comparing each individual surgical CPT code, current practice patterns, and techniques to determine the appropriate relationship of the surgical code to the anesthesia CPT code assignment. Using this methodology, the surgical codes and anesthesia codes are assigned the most appropriate coding relationships. Optum360 does not rely on the combinations suggested by other organizations or groups with the exception of CMS. Reimbursement data was not used to suggest one code combination over another.

Format

An understanding of the *Anesthesia Cross Coder* format allows users to easily navigate its content. Information within the main section ties to the CPT book and the codes are presented in the same numeric order as the anesthesia and other appropriate CPT sections.

Sections

Anesthesia Cross Coder provides linked information to the CPT code range 00100 to 01999, as well as several other code ranges typically used by anesthesiologists. The codes are divided into the same sections as found in the CPT book.

Codes and Code Ranges

The data within each CPT code set of *Anesthesia Cross Coder* is presented as follows:

- · Anesthesia CPT code
- · Corresponding surgical CPT codes and descriptions
- ICD-10-CM diagnostic codes and descriptions
- HCPCS Level II codes and descriptions, where applicable

For example:

00102

00102 Anesthesia for procedures involving plastic repair of cleft lip **Associated CPT Codes**

40700	Plastic repair of cleft lip/nasal deformity; primary, partial or complete, unilateral
40701	Plastic repair of cleft lip/nasal deformity; primary bilateral, 1-stage procedure
40702	Plastic repair of cleft lip/nasal deformity; primary bilateral, 1 of 2 stages
40720	Plastic repair of cleft lip/nasal deformity; secondary, by recreation of defect and reclosure

40761 Plastic repair of cleft lip/nasal deformity; with cross lip pedicle flap (Abbe-Estlander type), including sectioning and inserting of pedicle

ICD-10-CM Diagnostic

Cleft lin hilateral

Q30.0	Cierciip, bilaterai
Q36.1	Cleft lip, median
Q36.9	Cleft lip, unilateral
Q37.Ø	Cleft hard palate with bilateral cleft lip
Q37.1	Cleft hard palate with unilateral cleft lip
Q37.2	Cleft soft palate with bilateral cleft lip
Q37.3	Cleft soft palate with unilateral cleft lip
Q37.4	Cleft hard and soft palate with bilateral cleft lip
Q37.5	Cleft hard and soft palate with unilateral cleft lip
Q37.8	Unspecified cleft palate with bilateral cleft lip 🔻
Z42.8	Encounter for other plastic and reconstructive surgery
	following medical procedure or healed injury

Each anesthesia CPT code or code range is followed by its specific surgical CPT, ICD-10-CM, and HCPCS Level II links. *Anesthesia Cross Coder* presents full descriptions for all CPT codes and their links.

Icon Key

An icon key is provided in the bottom margin on each page. These icons, or symbols, can be found next to particular ICD-10-CM diagnosis codes listed in the crosswalk, as appropriate. These icons warn of coding edits, which apply to that particular code and must be followed. For instance, a procedure done on the prostate would list diagnosis codes for prostate conditions supporting medical necessity. These codes would never be assigned to a female patient and these codes appear with the icon denoting a male only diagnosis. The following icons appear in the *Anesthesia Cross Coder:*

Anesthesia Cross Coder Intrathoracic

00548

00548 Anesthesia for thoracotomy procedures involving lungs, pleura, diaphragm, and mediastinum (including surgical thoracoscopy); intrathoracic procedures on the trachea and bronchi

Associated CPT Codes

31/00	rracheopiasty; intrathoracic
31766	Carinal reconstruction
31770	Bronchoplasty; graft repair
31775	Bronchoplasty; excision stenosis and anastomosis
31781	Excision tracheal stenosis and anastomosis; cervicothoracic
31786	Excision of tracheal tumor or carcinoma; thoracic
31805	Suture of tracheal wound or injury; intrathoracic

32442 Removal of lung, pneumonectomy; with resection of segment of trachea followed by broncho-tracheal anastomosis (sleeve pneumonectomy)

32815 Open closure of major bronchial fistula

Trachoonlacty: intrathoracie

Esophagoplasty (plastic repair or reconstruction), thoracic approach; 43312 with repair of tracheoesophageal fistula

43314 Esophagoplasty for congenital defect (plastic repair or reconstruction), thoracic approach; with repair of congenital tracheoesophageal fistula

ICD-10-CM Diagnostic Codes

C33	Malignant neoplasm of trachea
C34.Ø1	Malignant neoplasm of right main bronchus
C34.Ø2	Malignant neoplasm of left main bronchus
C34.11	Malignant neoplasm of upper lobe, right bronchus or lung
C34.12	Malignant neoplasm of upper lobe, left bronchus or lung
C34.2	Malignant neoplasm of middle lobe, bronchus or lung
C34.31	Malignant neoplasm of lower lobe, right bronchus or lung
C34.32	Malignant neoplasm of lower lobe, left bronchus or lung
C34.81	Malignant neoplasm of overlapping sites of right bronchus and lung
C34.82	Malignant neoplasm of overlapping sites of left bronchus and lung
DØ2.1	Carcinoma in situ of trachea

DØ2.21 Carcinoma in situ of right bronchus and lung DØ2.22 Carcinoma in situ of left bronchus and lung

D14.2 Benign neoplasm of trachea

D14.31 Benign neoplasm of right bronchus and lung D14.32 Benign neoplasm of left bronchus and lung

D38.1 Neoplasm of uncertain behavior of trachea, bronchus and lung

J95.Ø1 Hemorrhage from tracheostomy stoma J95.Ø2 Infection of tracheostomy stoma

J95.Ø3 Malfunction of tracheostomy stoma J95.Ø4 Tracheo-esophageal fistula following tracheostomy

J95.Ø9 Other tracheostomy complication

198.09 Other diseases of bronchus, not elsewhere classified

Q32.Ø Congenital tracheomalacia

Q32.1 Other congenital malformations of trachea

Q32.2 Congenital bronchomalacia

Q32.3 Congenital stenosis of bronchus

Other congenital malformations of bronchus Q32.4

Q39.1 Atresia of esophagus with tracheo-esophageal fistula

Congenital tracheo-esophageal fistula without atresia

S11.021A Laceration without foreign body of trachea, initial encounter

S11.021S Laceration without foreign body of trachea, sequela

S11.022A Laceration with foreign body of trachea, initial encounter

S11.022S Laceration with foreign body of trachea, sequela

S11.023A Puncture wound without foreign body of trachea, initial encounter

S11.024A Puncture wound with foreign body of trachea, initial encounter

S11.025A Open bite of trachea, initial encounter

S17.ØXXA Crushing injury of larynx and trachea, initial encounter

S27.411A Primary blast injury of bronchus, unilateral, initial encounter

S27.412A Primary blast injury of bronchus, bilateral, initial encounter

S27.421A Contusion of bronchus, unilateral, initial encounter

S27.422A Contusion of bronchus, bilateral, initial encounter

S27.431A Laceration of bronchus, unilateral, initial encounter

S27.432A Laceration of bronchus, bilateral, initial encounter

S27.491A Other injury of bronchus, unilateral, initial encounter

S27.492A Other injury of bronchus, bilateral, initial encounter

S27.51XA Primary blast injury of thoracic trachea, initial encounter

S27.52XA Contusion of thoracic trachea, initial encounter

S27.53XA Laceration of thoracic trachea, initial encounter

S27.59XA Other injury of thoracic trachea, initial encounter

T17.510A Gastric contents in bronchus causing asphyxiation, initial encounter

T17.518A Gastric contents in bronchus causing other injury, initial encounter

T17.52ØA Food in bronchus causing asphyxiation, initial encounter

T17.528A Food in bronchus causing other injury, initial encounter

T17.590A Other foreign object in bronchus causing asphyxiation, initial encounter

T17.598A Other foreign object in bronchus causing other injury, initial encounter

T27.1XXA Burn involving larynx and trachea with lung, initial encounter

00550

00550 Anesthesia for sternal debridement

Associated CPT Codes

21627 Sternal debridement

21750 Closure of median sternotomy separation with or without debridement (separate procedure)

ICD-10-CM Diagnostic Codes

Malignant neoplasm of ribs, sternum and clavicle C41.3

C79.51 Secondary malignant neoplasm of bone

D16.7 Benign neoplasm of ribs, sternum and clavicle

D48.Ø Neoplasm of uncertain behavior of bone and articular cartilage

D49.2 Neoplasm of unspecified behavior of bone, soft tissue, and skin

M86.68 Other chronic osteomyelitis, other site

M87.Ø8 Idiopathic aseptic necrosis of bone, other site

M9Ø.88 Osteopathy in diseases classified elsewhere, other site

S21.121D Laceration with foreign body of right front wall of thorax without penetration into thoracic cavity, subsequent encounter

S21.121S Laceration with foreign body of right front wall of thorax without penetration into thoracic cavity, sequela

S21.122D Laceration with foreign body of left front wall of thorax without penetration into thoracic cavity, subsequent encounter

521.1225 Laceration with foreign body of left front wall of thorax without penetration into thoracic cavity, sequela

S21.141D Puncture wound with foreign body of right front wall of thorax without penetration into thoracic cavity, subsequent encounter

S21.1415 Puncture wound with foreign body of right front wall of thorax without penetration into thoracic cavity, sequela

S21.142D Puncture wound with foreign body of left front wall of thorax without penetration into thoracic cavity, subsequent encounter

S21.142S Puncture wound with foreign body of left front wall of thorax without penetration into thoracic cavity, sequela

T81.4XXA Infection following a procedure, initial encounter

T81.89XA Other complications of procedures, not elsewhere classified, initial encounter

00560

00560 Anesthesia for procedures on heart, pericardial sac, and great vessels of chest; without pump oxygenator

Associated CPT Codes

0451T Insertion or replacement of a permanently implantable aortic counterpulsation ventricular assist system, endovascular approach, and programming of sensing and therapeutic parameters; complete system (counterpulsation device, vascular graft, implantable vascular hemostatic seal, mechano-electrical skin interface and subcutaneous electrodes)

0452T Insertion or replacement of a permanently implantable aortic counterpulsation ventricular assist system, endovascular approach, and programming of sensing and therapeutic parameters; aortic counterpulsation device and vascular hemostatic seal

0453T Insertion or replacement of a permanently implantable aortic counterpulsation ventricular assist system, endovascular approach, and programming of sensing and therapeutic parameters; mechano-electrical skin interface
