

California Medicaid Add-ons Medi-Cal code maintenance made easier

Online Medical
Coding Software

California Medicaid (Medi-Cal) CPT®/HCPCS and revenue code reporting brings some special challenges

Medi-Cal continues to maintain “local” codes, as well as not accept the standard list of revenue codes. Not accounting for these differences creates rework in the form of edits and denials. Enterprise ChargemasterExpert.com, which is coupled with RevenueCyclePro.com brings up-to-date reference capabilities to avoid these issues from the start. Enterprise ChargemasterExpert.com flags these Medi-Cal-specific issues (invalid CPT®/HCPCS, invalid revenue code, questionable modifier, questionable revenue code) automatically and suggests codes for efficient action.

California Medicaid Edits (Item WA41)

- Enterprise ChargemasterExpert.com flags potential issues related to CPT®/HCPCS and revenue codes Medi-Cal does not accept
- Edits are also present for questionable CPT®/HCPCS to revenue code and CPT®/HCPCS to modifier relationships

California Medicaid Reference Add-on (Item WA42) powered by RevenueCyclePro.com

RevenueCyclePro.com provides the current Medi-Cal acceptable modifier crosswalk, CPT®/HCPCS to revenue code crosswalk as well as Medi-Cal rate sheet information. Sourced directly from the Medi-Cal provider manuals, this vital data assists with:

- Accurate billing and chargemaster setup
- Minimizing edits and denials related to coding issues

May only be purchased with a new or existing Optum Enterprise ChargemasterExpert.com or RevenueCyclePro.com subscription; multi-user licenses available.

CPT is a registered trademark of the American Medical Association.

-
- **Includes up-to-date reference capabilities**
 - **Boost accuracy and reduce state denials with Enterprise ChargemasterExpert.com**
